## Waterline Facilitator Development

---

For facilitators who would like to continue building their skills, we offer Waterline Facilitator Development. Content covers:

- Deepening theory and application
- How to take groups to a deeper level
- Questioning that taps into underlying assumptions
- Addressing problems and prevention

The program also includes:

- A comprehensive facilitator guide and CD-ROM which includes agendas, presentations, worksheets, sample communications, and much more
- Participation in four group coaching sessions over six months
- Six hours of individual coaching between sessions
- The opportunity to participate in an ongoing learning community of practitioners.

*“Facilitation requires an infinite tool chest. I have to be able to help my clients birth their thoughts...whether it’s an easy water-birth or a C-section. WAL Facilitators’ Manual is such an infinite tool chest. It has no equal.” ~ Perry Carrison*

*"The Waterline facilitator training was truly a life-changing experience for me. It changed how I 'help' my clients, friends, and family, trusting to their wisdom more than to my own knee-jerk advice to solve their problems. During the training, which included actual action learning sessions, I got to experience how much more effective the Waterline Action Learning method was than what I had been doing." ~ Deb Howard*

Sessions are scheduled with the participants. Please contact either Marcia Hyatt at 218-387-9239 or [Marcia@MarciaHyatt.com](mailto:Marcia@MarciaHyatt.com), or Ginny Belden-Charles at 651-698-7799 or [Ginny@BeldenCharles.com](mailto:Ginny@BeldenCharles.com).
